<https://www.ftc.gov/business-guidance/resources/complying-made-usa-standard>

To whom it may concern

As a value-added of submetering and energy management solutions, TBWC takes pride in partnering with select manufacturers whose products are made in the USA.

- Dent Instruments is an ISO 9001:2015 QMS Certified Company based in Bend, Oregon. Their PowerScout series of submeters are all USA made certified. An example of one of their PowerScout 3 HD (DIPS3) three channel meters, TBWC pre-programs, labels and package ready for install with 'made in the USA' current sensor CTs is shown here:

The Dent part number for all meters TBWC sells are reflected both on the face of the meter, (as shown here), as well as in the description field for each specific meter and kit TBWC supplies.

Example:

TBWC Part Number	Description
DI-208/100-N1-KIT.02	120/208V 3-Phase, NEMA 1 Wallmount Smart Meter w/(3) 100-Amp Split-Core CT. Modbus Serial Communications (DI-PS3HD-C-D-N w/(3) WC1-100-MV333)

- Wattcore Inc., is our partner for USA Made CTs, current sensors, and flexible rope CTs. Manufacturing and headquarters is based in Palm Coast, Florida. All products are USA made certified and as shown in the TBWC description above, the Wattcore part # (WC1-100-MV333) is referenced here as well as on the product itself. <https://www.wattcore.com/about.html>

We have included a Certificate of Origin from both.

Please let us know if you have any additional questions and thanks for the opportunity to serve.

Sincerely,

*Joseph G Blanchard*
